A Future With Birds...

The AFA is a national, non-profit 501(c)3 educational organization which represents all aspects of aviculture and educates the public about the keeping and breeding of birds in captivity.

The mission and purpose of AFA is to promote the advancement of aviculture through educational programs that enable better husbandry, management, and living conditions for exotic birds; promote avian research and conservation of exotic birds; keep our members aware of legislative issues that affect aviculture and aviculturists, and keep legislators aware of the need for fair and equitable regulations.
